

Do it yourself- flange size measuring tool

Rather have some help? Contact 0493 124 080

cut here ✂

1. Print this sheet off in A4 paper size
2. Fold the paper across the dotted line (through the circles above)
3. Cut out each half circle
4. Measure each nipple they can be different sizes
5. Make sure it is a snug fit around the nipple
6. Best time to measure- before pumping or feeding or at least an hour after
7. Contact Care Lactation as we now have flange inserts available fitting different brand pumps (free delivery within Warrnambool)
